Member Since / Start Date:

Research Interest Group: (Check all that apply)

* Numerical Analysis and Algorithms

* Modeling, Simulation, and Computational Math

* Classical Analysis: Approximation Theory and Harmonic Analysis

* Learning Theory, Stochastic Analysis, and Compressive Sensing

* Ordinary and Partial Differential Equations

* Discrete Mathematics, Algorithms, and Applications

* Image Processing and Computer Vision

* Number Theory and Applications

* Optimization and Variational Methods

* Biomathematics

* Theory, Computation and Modeling of Advanced Materials

* Computer Algebra
